

Investing in Communities

Making small grants to community organisations and local charities in Kent to strengthen their resilience and build their capacity to deliver sustainable, face-to-face services to people at the margins of society.

Colyer-Fergusson Trust believes that small, locally focused organisations are often best placed to deliver flexible, responsive, direct support to the most vulnerable people in society. It also recognises that, at a time of rising demand for services, smaller organisations have been particularly hard hit by funding cuts and the move to contracts and tender-based funding. In response, the Trust is offering a grants' programme targeted at smaller, community-led organisations with three strands:

Stabilising: providing grants for basic running/core costs, **not** specifically connected to delivering projects. By investing in organisations as a whole, the Trust will help local groups concentrate on delivering vital services.

Extending: providing one-off grants for the costs associated with developing and strengthening local, grassroots organisations. For example, helping local groups investigate and test new ways of operating, diversify their services, introduce efficiencies or establish partnerships.

Delivering: providing one-off grants for the costs associated with delivering small projects or resources for socially excluded groups.

The Trust is interested to hear from smaller charities in Kent; those delivering essential services to the most vulnerable people in the community and working at grass roots and local community level across a wide range of activities, where a relatively small amount of money can make a big difference.

How to Apply

All applications **must be submitted** using the Trust's online application form. Applications by email will not be accepted. There are no deadlines and decisions are made on a rolling basis. Organisations are advised to download a copy of the application questions and prepare their answers in advance in Word, as they will be able to cut and paste these into the online form.

Please note: organisations **can only apply to one** of 'Stabilising', 'Extending' or 'Delivering' funds in the same year. The 'Stabilising' and 'Extending' Funds are for **core/development costs** only. The 'Delivering' Fund is for **small, one-off project costs and community resources**. For larger project cost grants please see CFCT's other programmes.

Decisions

We aim to inform applicants as soon as possible about the outcome of their application– usually taking less than three months.

Unfortunately, the Trust receives many more applications than it can fund and therefore many good proposals have to be turned down. The trustees and their staff regret that they are not able to enter into correspondence about the reasons for their decisions.

If you have a question that is not answered in this guidance, please email Steve Boucher sboucher@cfct.org.uk
